The World Atlas of Wine

Hugh Johnson & Jancis Robinson

This 7th Edition confirms the status of *The World Atlas of Wine* as the most essential and authoritative wine reference work available. Reflecting the changing nature of the wine scene, *The World Atlas Of Wine* takes into account changes in climate, techniques, fashion and new regulations over the last six years. A fresh new design, a bold new 'infographic' illustration style and stunning new images make the visual appeal of the atlas as strong as its expert, accessible text.
